

PRESCHOOL SUMMER PROGRAM

Monday, June 14 ~ Friday, August 6, 2021

Monarch Christian Preschool will have a FUN Summer Program starting June 14~ August 6, 2021. Children will be introduced to a new cultural and science theme each week. Students will also participate in academic activities in order to maintain all they have learned during the school year. Parents may sign up for the whole summer or for as little as two weeks. A fun activity relating to the theme will be introduced each week.

DRESS CODE: Students will have free dress for the summer session. Students may wear t-shirts and shorts, dresses or pants. All clothes must be modest in keeping with the school's dress code policy. Students must wear closed toe shoes at all times. Sandals and slippers are not allowed for the safety of the students.

Please check the activity sheet for this year's themes. Activities and themes are subject to change with notice.

DINOSAURS: Brontosaurus, Stegosaurus, Tyrannosaurus and Triceratops! We will learn about this fascinating group of reptiles that once ruled the earth. The children will study their shapes, sizes and habitat. Learn the differences between meat eating and plant eating animals and look at some dinosaur teeth up close.

SOLAR SYSTEM: Students will learn all about the sun, moon, planets and asteroids. They will learn about the Earth and its position in space, day, night and year.

BIRDS: Ever wonder how a bird flies or how long a baby bird must be inside an egg before it hatches? These questions and many more will be investigated during our study of birds.

SEA CREATURES: The students will learn to identify and name some of the creatures in the sea. They will learn their characteristics and habitat among many fun fish facts!

FARM: We will learn all about the animals that live on the farm, the food they provide for us, as well as the many jobs of the farmer.

Weather & Water Play: The students will learn all the different kinds of weather conditions they might encounter when they go outside! From sunny days with cool breezes to violent rainstorms and frigid blizzards are some of the weather conditions the students will learn about. Students will also participate in a "Bubble Show". They will learn how bubbles form, why they're spherical, how to make a cube bubble and the science of bubble bursting!

MEXICO: Students will learn fun facts about the Mexican culture, foods, festivals and language. We will end the week with a Mexican fiesta!

SPORTS: Students have fun participating and learning about various sports. Races, basketball, soccer and obstacle courses are a few of the skills the students will learn. Students may bring their bikes or scooters to ride at school on Wheels Day! Please remember to bring a helmet and knee and elbow pads for safety reasons.
